We generate a new version of this summary box whenever any of the information contained herein changes.

### Account name

Tide Instant Saver Account

### What is the interest rate?

The interest rate applicable to your Tide Instant Saver Account is a variable rate and is equal to the published Bank of England Base Rate (gross) minus a certain percentage, determined by Tide (the “**Tide Margin**”). The current Tide Margin can be found in the table below. The currently applicable Bank of England Base Rate is 4.00% (gross). The applicable Bank of England base rate can be found here: <https://www.bankofengland.co.uk>.

As part of your Tide Free Membership Plan, you receive a preferential interest rate on your Tide Instant Saver deposit as per the table below:

Balance	Interest Rate p.a.	Tide Margin
Up to £75,000.00	2.52% AER / 2.50% gross	1.50% gross
Over £75,000.00	0.00% AER / 0.00% gross	not applicable

On balances up to £75,000 you'll earn interest on the whole balance. If your balance is above this amount at any time you will not earn interest on the excess amount.

“AER” stands for Annual Equivalent Rate and illustrates the interest rate if it was paid and compounded once each year. “Gross” is the basic annual interest rate without considering compounding.

Interest is calculated daily, based on the balance available on your Tide Instant Saver Account at the end of the day, and paid monthly into your Tide Instant Saver Account on the first day of the month following the month in which the interest is earned.

Market conditions may result in negative interest being applied to your Tide Instant Saver Account. If this happens, instead of earning interest on the funds in your account, Tide will deduct interest from your account.

### **Can Tide change the interest rate?**

Yes. As the interest rate is variable it can move up or down.

The interest rate can change at any time for the following reasons:

1. Tide can change the Tide Margin at any time and this will impact the interest rate you receive. Please also refer to the Tide Instant Saver Terms.
  - If we decide to increase the Tide Margin and your interest rate will decrease as a result, we will give you at least 14 days' notice in writing before the change takes effect.
  - We don't have to give you prior notice if your interest rate increases because we decrease the Tide Margin. However, we will notify you about the change within 30 days of it taking effect.
2. In addition, each time the Bank of England Base Rate changes, the interest rate applicable to your Tide Instant Saver Account will also automatically change, in line with the increase or decrease in the Bank of England Base Rate. Please note that this might happen in addition to changes due to changes in the Tide Margin.
  - The change will take effect from the day the Bank of England announces the change.
  - We do not have to give you prior notice of the change, but we will notify you about the change within 30 days of it taking effect.
  - The Bank of England Base Rate may be negative, which may result in a negative interest rate applying to your Tide Instant Saver Account.

**What would the estimated balance be after 12 months based on a £1,000, £75,000 and £85,000 deposit?**

For Tide Members on the [Tide Free Membership](#) Plan the estimated balances after 12 months for deposits of £1,000, £75,000 and £85,000 are as follows:

Initial amount	Balance after 12 months
£1,000.00	£1,025.29
£75,000.00	£76,875.00
£85,000.00	£86,875.00*

The estimates are based on:

- the Bank of England base rate being 4.00%
- no further deposits or withdrawals being made and no changes to the interest rate taking place
- no further changes in Bank of England rates and the Tide Margin

\* A 0.00% AER interest rate has been applied on the amount above £75,000.

The projections are for illustrative purposes only and do not take into account your personal circumstances.
