### Can Tide change the interest rate?

Yes. As the interest rate is variable it can move up or down.

The interest rate can change at any time for the following reasons:

1. Tide can change the percentage by which the interest rate is below Bank of England Base Rate at any time and this will impact the interest rate you receive. Please also refer to the Tide Cash ISA Terms.
  - If this change will decrease your interest rate, we will give you at least 14 days' notice in writing before the change takes effect.
  - If this change increases your interest rate, we don't have to give you prior notice, but we will notify you about the change within 30 days of it taking effect.
2. In addition, each time the Bank of England Base Rate changes, the interest rate applicable to your Tide Cash ISA will also automatically change, in line with the increase or decrease in the Bank of England Base Rate. Please note that this might happen in addition to changes to the percentage by which the interest rate is below the Bank of England Base Rate .
  - The change will take effect from the day the Bank of England announces the change.
  - We do not have to give you prior notice of the change, but we will notify you about the change within 30 days of it taking effect.
  - The Bank of England Base Rate may be negative, which may result in a negative interest rate applying to your Tide Cash ISA.
