Tide Instant Saver Account	
What is the interest rate?	
<p>The interest rate applicable to your Tide Instant Saver Account is a variable rate and is equal to the published Bank of England Base Rate (gross) minus a certain percentage. The current percentage by which the interest rate is below Bank of England Base Rate, can be found in the table below. The interest rate is variable and tracks the Bank of England base rate. The current Bank of England Base Rate is 3.75% (gross). To monitor the Bank of England base rate visit https://www.bankofengland.co.uk.</p> <p>As part of your <u>Tide Smart Membership</u> Plan, you will earn interest on your Tide Instant Saver balance as per the table below:</p>	
Balance	Interest Rate p.a. (variable)
Up to £100,000.00	2.50% AER / 2.48% gross 1.27% gross below Bank of England Base Rate
Over £100,000.00*	0.00% AER / 0.00% gross
<p>*No interest is earned on balances above this amount.</p> <p>Interest is calculated daily, based on the balance available on your Tide Instant Saver Account at the end of the day, and paid monthly into your Tide Instant Saver Account on the first day of the month following the month in which the interest is earned.</p> <p>In the unlikely event of market conditions resulting in negative interest, this may be applied to your Tide Instant Saver Account. If this happens, instead of earning interest on the funds in your account, Tide will deduct interest from your account.</p>	

Can Tide change the interest rate?

Yes. As the interest rate is variable it can move up or down.

The interest rate can change at any time for the following reasons:

1. Tide can change the percentage by which the interest rate is below Bank of England Base Rate at any time and this will impact the interest rate you receive. Please also refer to the Tide Instant Saver Terms.
 - If this change will decrease your interest rate, we will give you at least 14 days' notice in writing before the change takes effect.
 - If this change increases your interest rate, we don't have to give you prior notice, but we will notify you about the change within 30 days of it taking effect.
2. In addition, each time the Bank of England Base Rate changes, the interest rate applicable to your Tide Instant Saver Account will also automatically change, in line with the increase or decrease in the Bank of England Base Rate. Please note that this might happen in addition to changes to the percentage by which the interest rate is below Bank of England Base Rate.
 - The change will take effect from the day the Bank of England announces the change.
 - We do not have to give you prior notice of the change, but we will notify you about the change within 30 days of it taking effect.
 - The Bank of England Base Rate may be negative, which may result in a negative interest rate applying to your Tide Instant Saver Account.
